Orthopaedic Associates of West Florida to Offer Services at Diagnostic Clinic Medical Center

CLEARWATER, Fla. – February 21, 2017 – The physicians and staff at Orthopaedic Associates of West Florida are proud to announce an exciting new partnership with Diagnostic Clinic Medical Center.

Beginning Monday, February 20, 2017, OAWF physicians will be available on site at the Diagnostic Clinic Medical Center at 1301 2nd Avenue SW, Largo, Florida 33770. Patients who arrive with an orthopaedic issue will be able to schedule an appointment to see a board-certified surgeon, that same day.

“This is a tremendous opportunity for us to come together with our colleagues at the Diagnostic Clinic Medical Center’s to better serve the community. This is really putting patients first, ending the need for multiple appointments and trips to the physician’s office,” said Andrew Cooper, M.D., President of Orthopaedic Associates of West Florida.

An OAWF physician will be on staff 5 days a week, and hours will vary between mornings and afternoons to better serve all patient’s schedules.

For more information about visit www.orthowestfl.com or call 727-461-6026.

About Orthopaedic Associates of West Florida:

At Orthopaedic Associates of West Florida, a family of board-certified physicians have been taking care of bay area patients for more than 30 years. We merge state-of-the-art technology with unsurpassed physician skills. OAWF provides patients with complete care offering two in-house MRI locations, X-ray at each of our four offices, Bone Densitometry, EMG/NCV, Physical and Hand Therapy and an Orthotics/Prosthetics department. We have four convenient locations to serve patients across the entire bay area.

About Diagnostic Clinic Medical Group:

Diagnostic Clinic Medical Group consists of more than 100 primary care physicians and health professionals, at six convenient locations across the Tampa bay area. We offer quick access to primary care physicians, timely consultations with specialists, and weekend and after hours services at two urgent care facilities.
